3 June 1948

Comm

MEMORANDUM TO: Chairman, Projects Review Committee

SUBJECT: Project [REDACTED]

25X1A

1. The Assistant Director for Special Operations has been negotiating for a considerable period through the General Counsel for certain rights for the Central Intelligence Agency at [REDACTED] for an installation essential to the development of communications for CIA.

25X1A

2. Agreement has recently been reached with the Army sufficient to warrant proceeding with the construction involved in connection with this project.

3. The Army Engineers have given us a total estimated cost of \$96,400 to complete the construction. It is desirable to obligate these funds prior to 30 June 1948, and to proceed immediately with the construction.

4. Supporting details are available in the files of the Office of Special Operations.

5. As this project can be completed from vouchered funds, and as the unobligated balance of funds for purposes of this nature to OSO is insufficient to cover the project, recommend approval of the obligation from fiscal year 1948 funds in the amount of \$96,400 for construction in connection with the Project at [REDACTED]
